

Dear MIDC Shareholders:

It is hard to believe 2020 has come and gone and we are approaching mid-year 2021. It is also hard to believe that we have been dealing with the affects of the COVID-19 pandemic for over a year. McPherson industries were certainly impacted by COVID, but not to the degree of some industries in other communities.

Our industrial employers remain positive about the remainder of 2021. There have been very few layoffs and several announced expansions moved forward as planned. Maintaining a good working relationship with existing industry has always been important and that has certainly been true this past year. These companies continue to be the foundation of McPherson County industry and essential to our economic growth.

Kasi Morales continues to bring together City and County offices and industry to expedite expansion processes.

Our marketing plan continues to provide McPherson with greater visibility and exposure. The plan is revised annually making sure budgeted funds are spent the most affected way.

We thank each of you for your commitment to McPherson by being a shareholder of MIDC.
