

Ian Mackellar

Ian brings more than 30 years of experience in pharmaceutical manufacturing having served in varying roles at Pfizer and Zoetis. Ian has expertise across a number of pharmaceutical manufacturing specialties, including specialty liquid, tableting, terminally sterilized and aseptic finished goods manufacturing. He also brings significant experience in leading transformational change initiatives based on Six Sigma practices and principles.

Ian joined Pfizer as the Site Leader of the Global Sterile Injectables site in McPherson, Kansas in 2019 after serving as Vice President, Global External Supply for Zoetis, based in Dublin, Ireland. Prior to this role, he served as Site Leader for Zoetis' Kalamazoo, Michigan site for several years. Before joining Zoetis, Ian held a number of positions at Pfizer's Peapack, New Jersey, and Kalamazoo sites, including as Director of Network Performance and Right First Time. He also held several Production Engineering and Technical Services roles at Pfizer, Pharmacia and Eli Lilly. Ian holds a Bachelor of Science degree in Chemical Engineering from Michigan State University and is Lean Six Sigma Black Belt certified.
